

BE BETTER. BE STRONGER. BPI.™

TOMORROW YOU'LL TRAIN EVEN HARDER.*†

**THE OLIGOPEPTIDE MULTI-CHAIN
LINKED BCAA MODEL.**

- SUPPORT MUSCLE PROTEIN SYNTHESIS[†]
- DECREASE PROTEIN CATABOLISM^{††}
- PROMOTE INSULIN SENSITIVITY[†]
- SUPPORT ENDOGENOUS GLUCOSE PRODUCTION^{††}
- ENHANCED RECOVERY FROM EXERCISE[†]

“FAST ABSORBING BCAA BLEND AND CLA MATRIX TO SUPPORT RECOVERY AND PREVENT MUSCLE BREAKDOWN.”

WHAT IS BEST BCAA™

BEST BCAA™ is an amino acid supplement that utilizes Oligopeptide-Enzymatic Technology. This is a bonded chain of 3 key amino acids: leucine, isoleucine, and valine which may act as a better transport vehicle for faster absorption. For you, this means a faster & more efficient recovery. **BEST BCAA™ supports the decrease of protein catabolism, or breakdown of protein, for preserving lean muscle mass and reducing soreness after a workout.**[†]

WHY IS IT BETTER?

The branched chain amino acids found in BEST BCAA™ (leucine, isoleucine, and valine) cannot be produced naturally in the body – therefore we have to supplement with them in order to enhance protein synthesis and increase muscle growth over time. The Oligopeptide-Enzymatic Technology takes the 3 amino acids, concentrates them, and bonds them together **to maximize muscle recovery, lean muscle building, and enhanced onset time (which means it kicks in faster!).**[†]

WHAT'S IN IT?

OLIGOPEPTIDE-ENZYMATIC TECHNOLOGY

A bond of the 3 amino acids leucine, isoleucine, and valine, which may act as a better transport vehicle for a more efficient metabolism, enhanced muscle recovery, and muscle building.[†]

CLA MATRIX BLEND

Aids in supporting lean muscle building, preserving lean muscle mass, and reducing body fat.^{††}
