“GARCINIA MAY HELP IMPROVE WEIGHT LOSS. SIMPLY ADD IT TO YOUR WATER FOR A DELICIOUS DRINK WITH ZERO CALORIES AND ZERO SUGAR!”

WHAT IS GARCINIA LIQUID WATER ENHANCER?

When most people diet, they look to cut out sugary drinks and hydrate with water instead. Now, with Garcinia water flavor enhancer, you can make a delicious drink that contains zero calories and zero sugar, all while helping you reach your goals. Garcinia is one of the most popular weight loss ingredients out there today and has been studied for years. It has shown promising results when used to help improve weight loss and support appetite control. Garcinia also does not contain caffeine, so you can add it to your favorite beverage night or day without being worried about the shakes or jitters, which some people may experience with other weight loss products. Simply add a squeeze to your water and get going!†

WHY IS IT BETTER?

BPI Sports’ new line of water enhancers makes supplementing on-the-go fun and easy! These delicious flavor boosters are made to add to your water or favorite beverage and can provide you with additional benefits such as increased energy, focus, weight loss or recovery. These easy and convenient bottles come in great-tasting flavors and are made with only the highest quality ingredients, plus they contain zero sugar! Grab one today – just squeeze and go!†

WHAT'S IN IT?

GARCINIA CAMBOGIA

Garcinia Cambogia is a native fruit of Indonesia, Asia and Africa. Research suggests it may help control appetite, promote satiety after meals and contribute to healthy weight loss.†
